

Planify

Developing a Smart Planning Tool

Benjamin | Muhammed | Gift | Wei | Pham

Importance

Work about Work

60%

Searching & Organizing

Project Failure

34%

Projects on time & within
budget

Frustrated Employees

83%

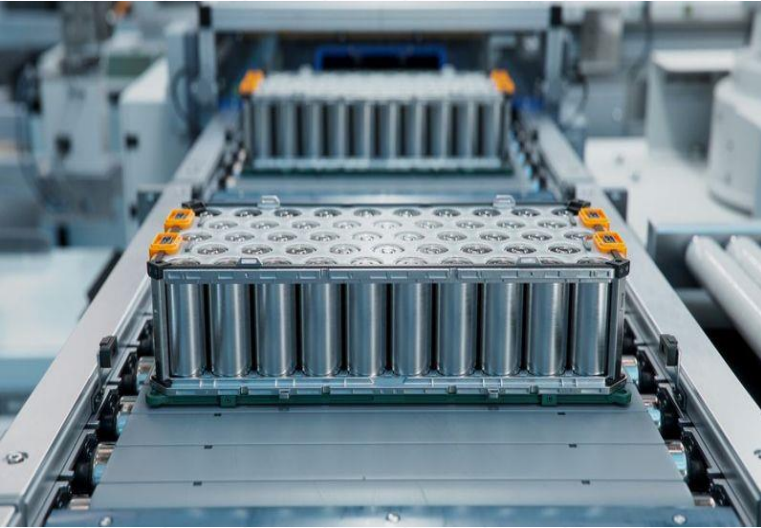

Believe their work isn't effective
because of managing processes

Own Problem

Analysis Department

- Fast feedback from taskforce team

Prototype - Production

Full Investigation

- Mechanical tests
- Chemical tests
- Thermal tests
- ...

Fast task distribution is required

Approach

Person A
Responsible for Task A

	Monday	Tuesday	Wednesday	Thursday	Friday
8:00-12:00	✓	✗	✗	✓	✗
13:00-17:00	✗	✗	✓	✗	✓

Task

Subtask

Person B
Responsible for Task B

	Monday	Tuesday	Wednesday	Thursday	Friday
8:00-12:00	✗	✗	✓	✗	✓
13:00-17:00	✓	✗	✗	✗	✗

Our Project

✓ Included Features

- Smart schedule planning
- Simple UI
- AI-generated sample schedule data

✗ Planned Features

- Direct integrations with e.g. Microsoft Outlook
- Additional manual editing of assigned tasks
- Additional reasoning of assignment

Why Planify matters

- **Eliminates manual** scheduling grind
- **Faster** time to plan
- Respects real constraints / **Scales** with team complexity
- Deadline-driven
- **Reduces overallocation** & burnout
- Foundation for **smarter Product Management** tooling

Example Use Case Execution
